

A smarter home starts before the walls close.

Bring lighting, shades, entertainment and networking
into the construction conversation early.

AI-generated concept interior.

A CONNECTED HOME BEGINS WITH A COORDINATED PLAN

Plan before rough-in.

Coordinate low-voltage pathways,
equipment locations and
infrastructure with the build.

Connect the team.

Bring technology requirements into
the conversation with your
architect, designer and trades.

Deliver intuitive living.

Unify everyday control, with
programming and ongoing service
beyond installation.

Smart-home control / Lighting & shades / AV / Networking / Cameras

Let's talk before rough-in.

Bring your plans. We'll help define the technology scope.
