

Set the mood. Keep the design.

Layer lighting, automated shades and discreet audio around how each room should look and feel.

AI-generated concept interior.

BEAUTIFUL ROOMS. THOUGHTFULLY INTEGRATED CONTROL.

Light every moment.

Create scenes for entertaining, quiet evenings and the rhythms of everyday life.

Shape natural light.

Coordinate automated shades with the room's light, privacy and window-treatment design.

Keep AV discreet.

Plan speakers, screens and controls around furnishings, finishes and clean sightlines.

Lighting scenes / Automated shades / Hidden AV / Whole-home music

Let's talk about the room you're creating.

Share the concept. We'll explore how technology can support it.
